Number Drop

Drop shapes in the right places to create combinations of identical or consecutive numbers on the grid. Be the most efficient and drop penalties onto your opponents !

As soon as a player reaches the Game Over line, the game ends and whoever has the most points is the winner. Will you reach the ultimate score of 100 ?

A game by 2 french authors **Florian Sirieix** and **Benoît Turpin** (**Welcome**, **Imaginarium**, **Prehistories**, **What's missing?** ...)

Number Drop

Retro Roll & Write

Game identity

Number Drop's retro, neon-coloured atmosphere blends futurism and 80s nostalgia.

You'll enjoy this modern adaptation of a retro video game, where your goal is to fill your grid with lines of numbers (not bricks like in the 80s!).

Highlights

- Mechanics: a checkered game with dice, combinations, gravity, simultaneous play
- Strategic depth, learning curve
- Interaction between players
- Solo and multi-player modes
- Retrogaming-inspired theme with a clean graphic style

Release date novembre 2021

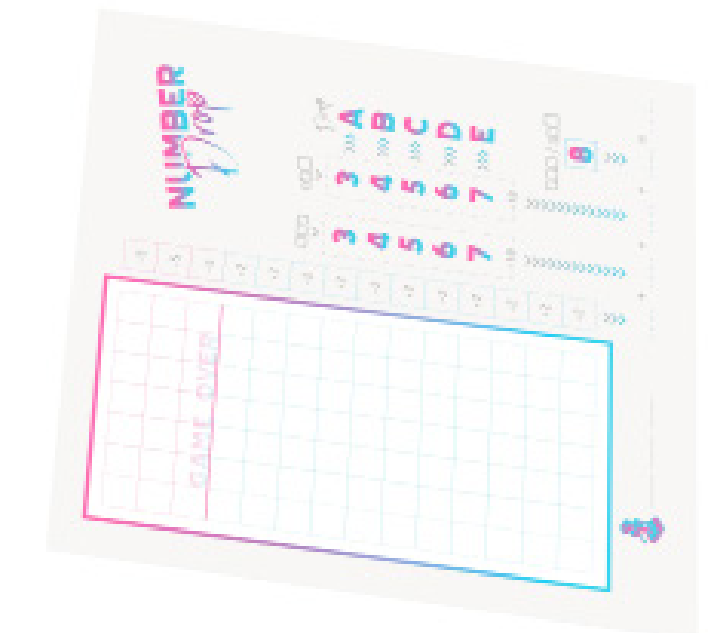

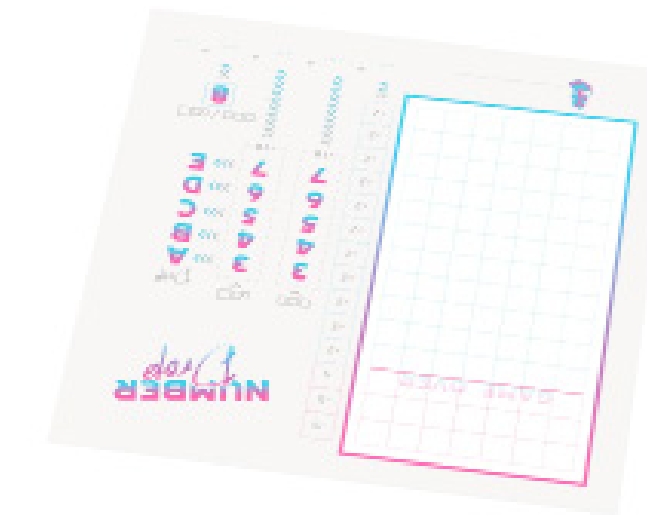

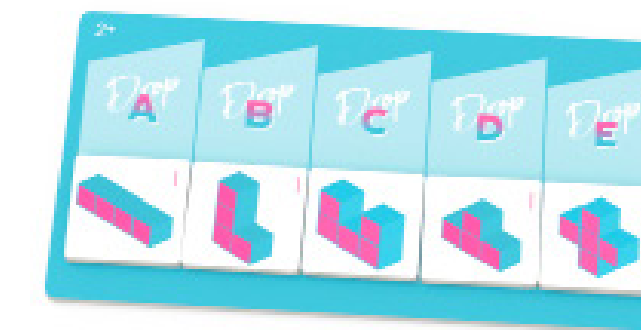

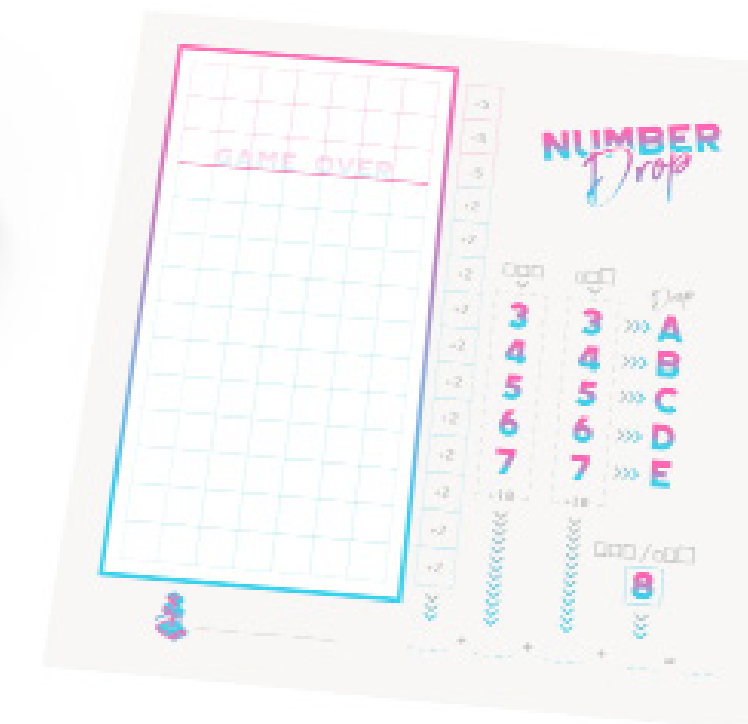

PVC : 17,99€

Content

- >5 special dice
- >100 playing sheets
- >1 board
- >5 tiles
- >1 french rulebook
- >1 english rulebook

The material has been designed to be used in all countries, without language barriers.

Game rules

Goal of the game

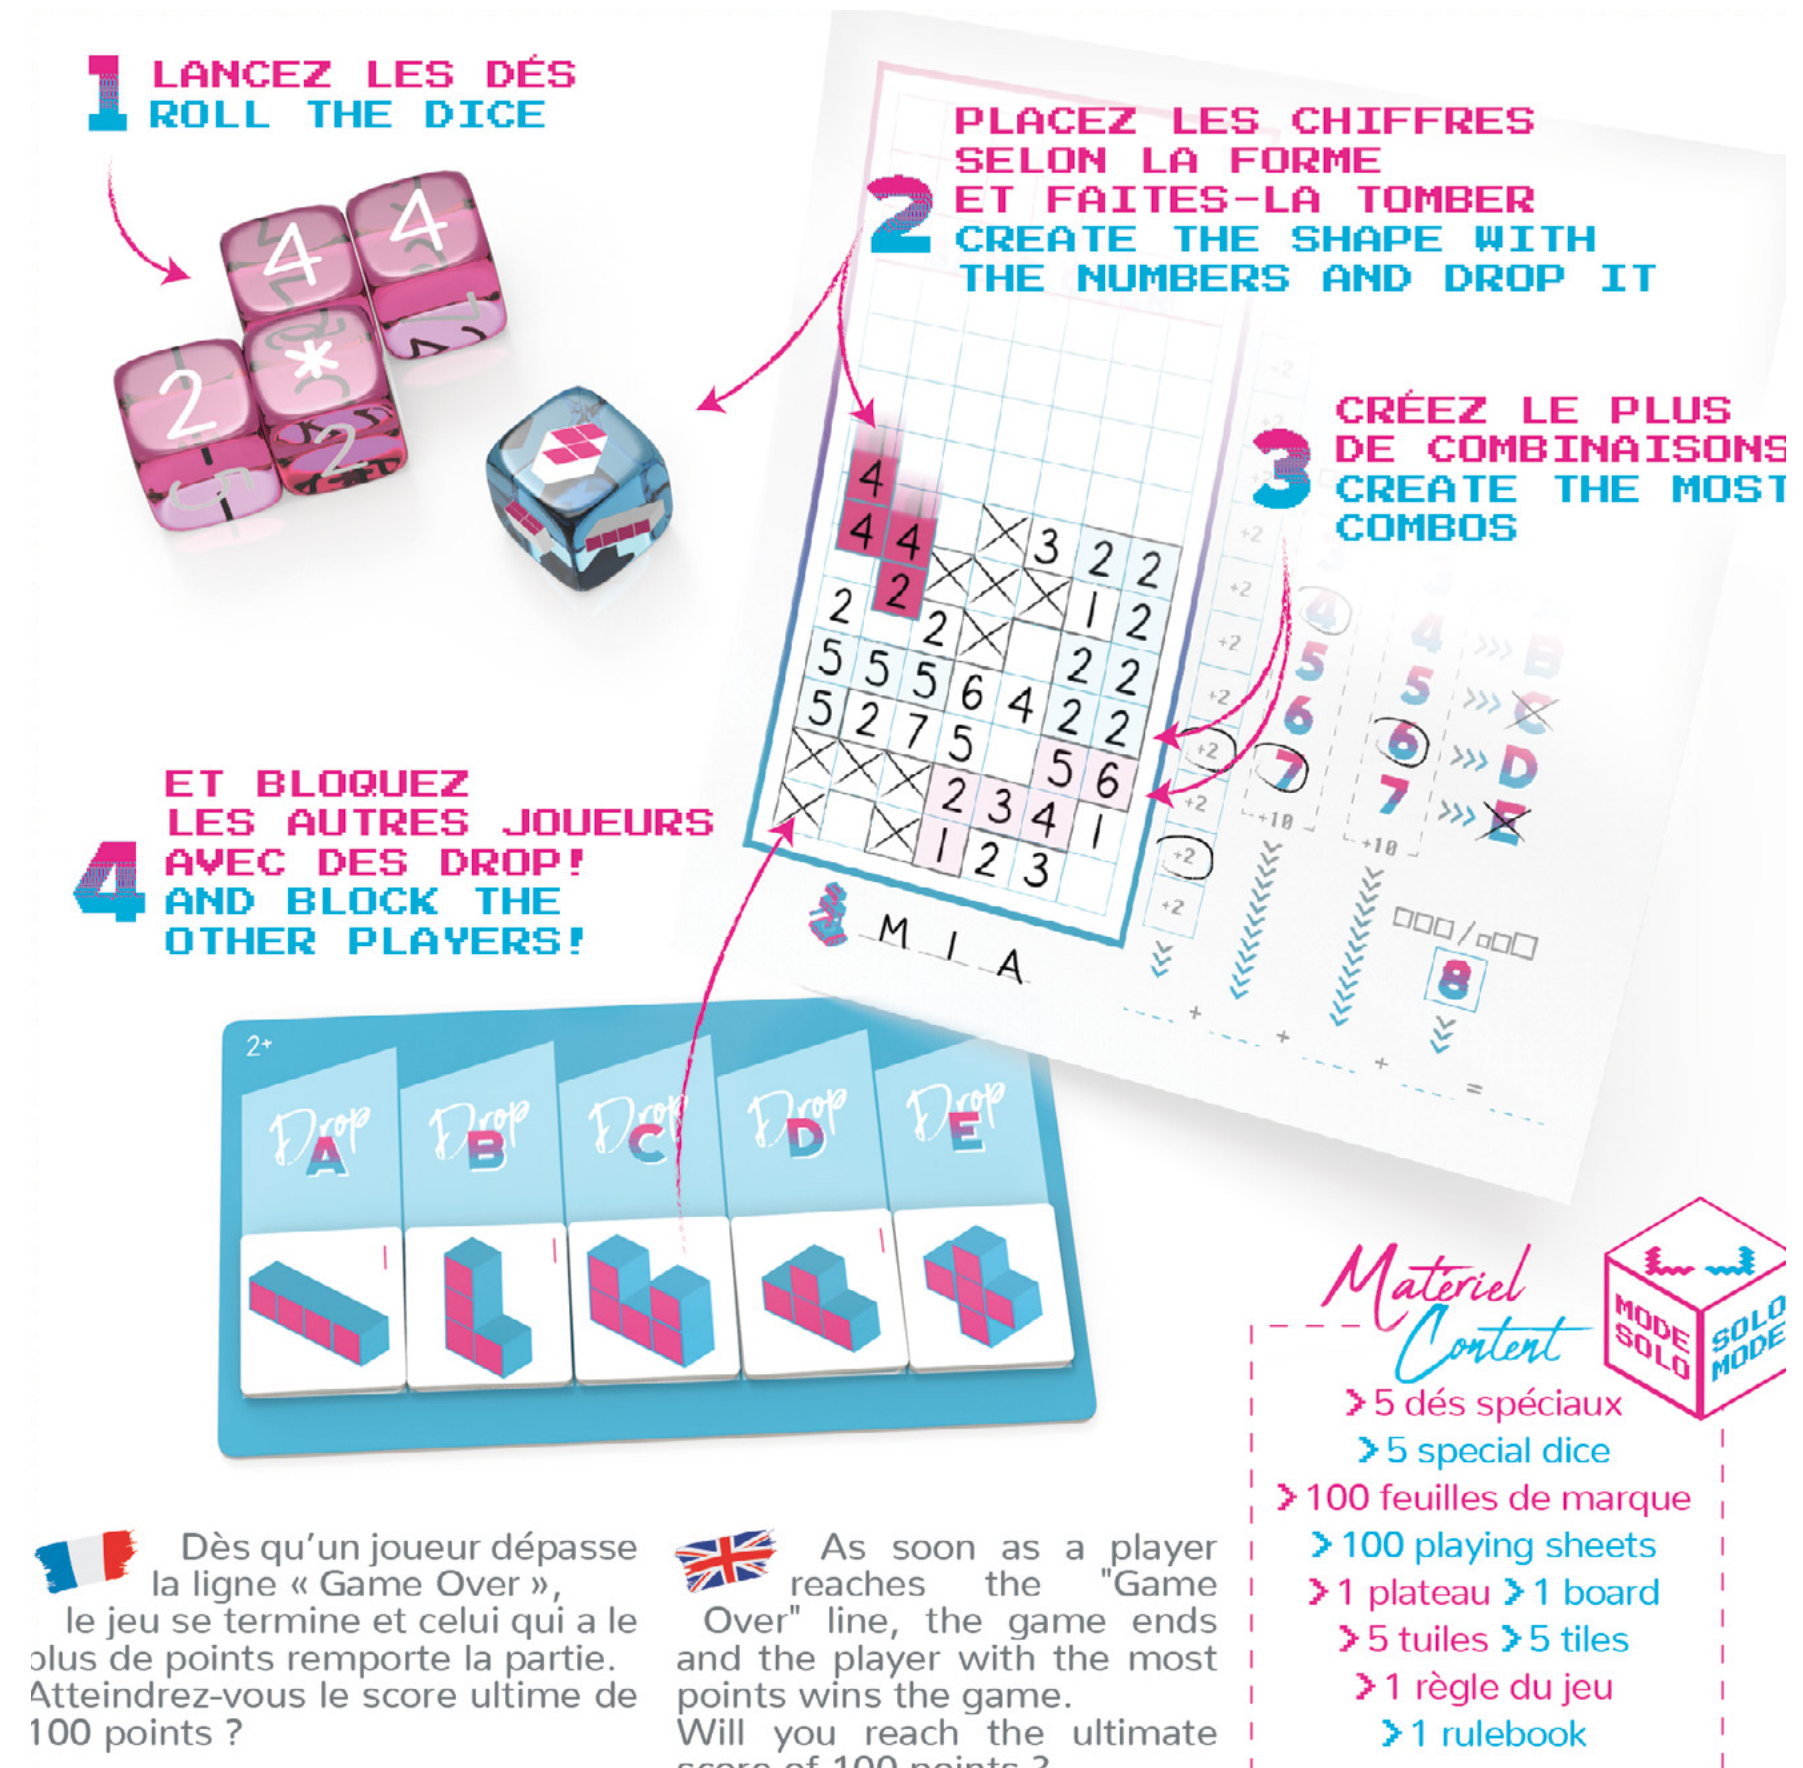

Number Drop is a roll & write game. The goal is to make the best out of a common dice roll. In Number Drop, you play with 5 dice : 4 numbered dice (from 1 to 7, evenly distributed) and a shape die.

Game turn

Each turn, players must combine the 5 dice to create a shape out of the 4 numbers. They will then drop that shape on their grid, and try and place it in such a way that the numbers of the shapes end up organized in series of identical or consecutive numbers. Creating these series will allow players to score points but also send blocks onto their opponents' grids to mess up with their plans.

End of the game

As soon as a player reaches the Game Over line, the game ends and whoever has the most points is the winner. Will you reach the ultimate score of 100?

The diagram illustrates the game mechanics with four numbered steps:

- 1 LANCEZ LES DÉS / ROLL THE DICE**: Shows five dice (four numbered 1-7 and one shape die) being rolled.
- 2 PLACEZ LES CHIFFRES SELON LA FORME ET FAITES-LE TOMBER / CREATE THE SHAPE WITH THE NUMBERS AND DROP IT**: Shows a player placing a shape made of four numbers onto a grid.
- 3 CRÉEZ LE PLUS DE COMBINAISONS / CREATE THE MOST COMBOS**: Shows a player creating a series of identical or consecutive numbers on the grid to score points.
- 4 ET BLOQUEZ LES AUTRES JOUEURS AVEC DES DROP! / AND BLOCK THE OTHER PLAYERS!**: Shows a player using a 'Drop' tile to block another player's path.

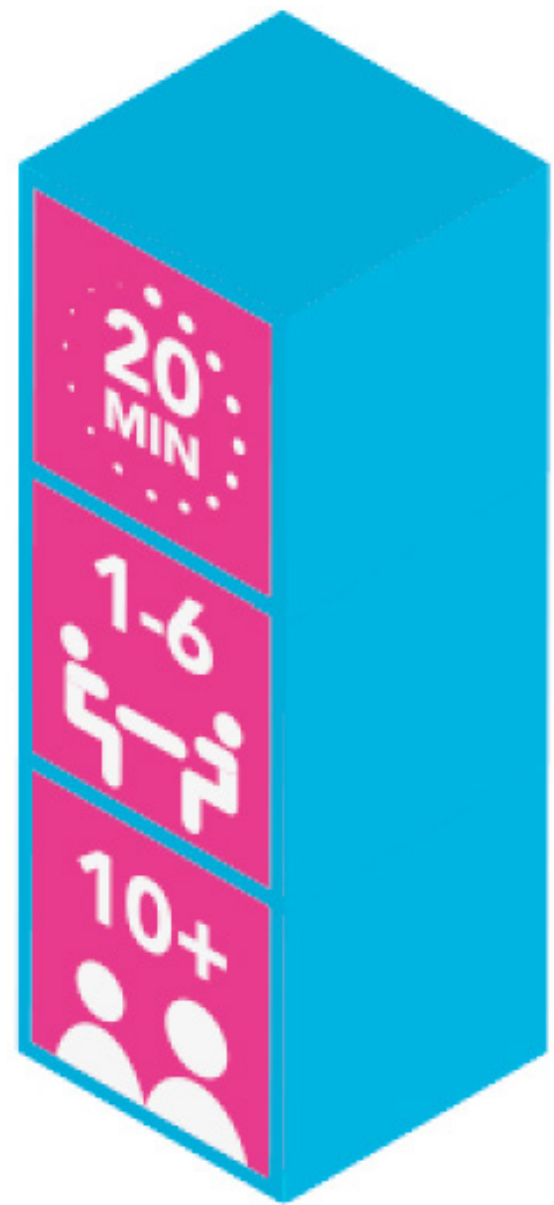

Material Content

- > 5 dés spéciaux / > 5 special dice
- > 100 feuilles de marque / > 100 playing sheets
- > 1 plateau / > 1 board
- > 5 tuiles / > 5 tiles
- > 1 règle du jeu / > 1 rulebook

Game Over

French: Dès qu'un joueur dépasse la ligne « Game Over », le jeu se termine et celui qui a le plus de points remporte la partie. Atteignez-vous le score ultime de 100 points ?

English: As soon as a player reaches the "Game Over" line, the game ends and the player with the most points wins the game. Will you reach the ultimate score of 100 points ?

The staff

Florian Sirieix

A teacher for special needs students, started with designing an online game in 2006, then went on to design board games in 2012. A successful collaboration with Bruno Cathala on the game Imaginarium helped him launch his game designer career. Number Drop is his 12th game, and the first of many in collaboration with Benoit Turpin.

Benoît Turpin

A founding member of the MALT (Mouvement des Auteurs Toulousains, a design group), grew up with board games and the friends who go with them. Since 2013, he started a career as game designer. He designed Optimo! (2015), then Welcome to... (2018) and its sequels, and Prehistories (2020). He has since discovered that designing games with others is even more fun, even with Florian. He is the current president of the SAJ (Société des Auteurs de Jeux), the french game designers' union, and he keeps and creating games. Number Drop is his next step in his career.

Lucie Teilhet

After the game Boss Quest, Number Drop is the second game Lucie has worked on. Creating the graphic identity of an abstract game was a real challenge.

Where to find the game ?

Number Drop will be available from November 2021 in all good french specialist shops.

Number Drop is distributed in France by Ludistri and soon in other countries.

Where test the game ?

The game will be demonstrated at the Spiel in Essen in October 2021, and at the Cannes Games Festival in early 2022.

The digital version of the game on the website Board Game Arena will be available at the end of 2021.

Débâcle Jeux

Publisher of original, Frenchy and fun board games

Publisher of original, Frenchy and fun board games.

Débâcle Jeux is a new French board game publisher, based in Occitania, which promotes the talent of local authors if possible but also from France and abroad.

Emmanuel Soulié and Julien Teilhet, creators of Débâcle Jeux, have been passionate for years about games of all kinds and board games in particular.

With their team, they wish to make you discover board games with offbeat universes, accessible to beginners or experienced players.

Community

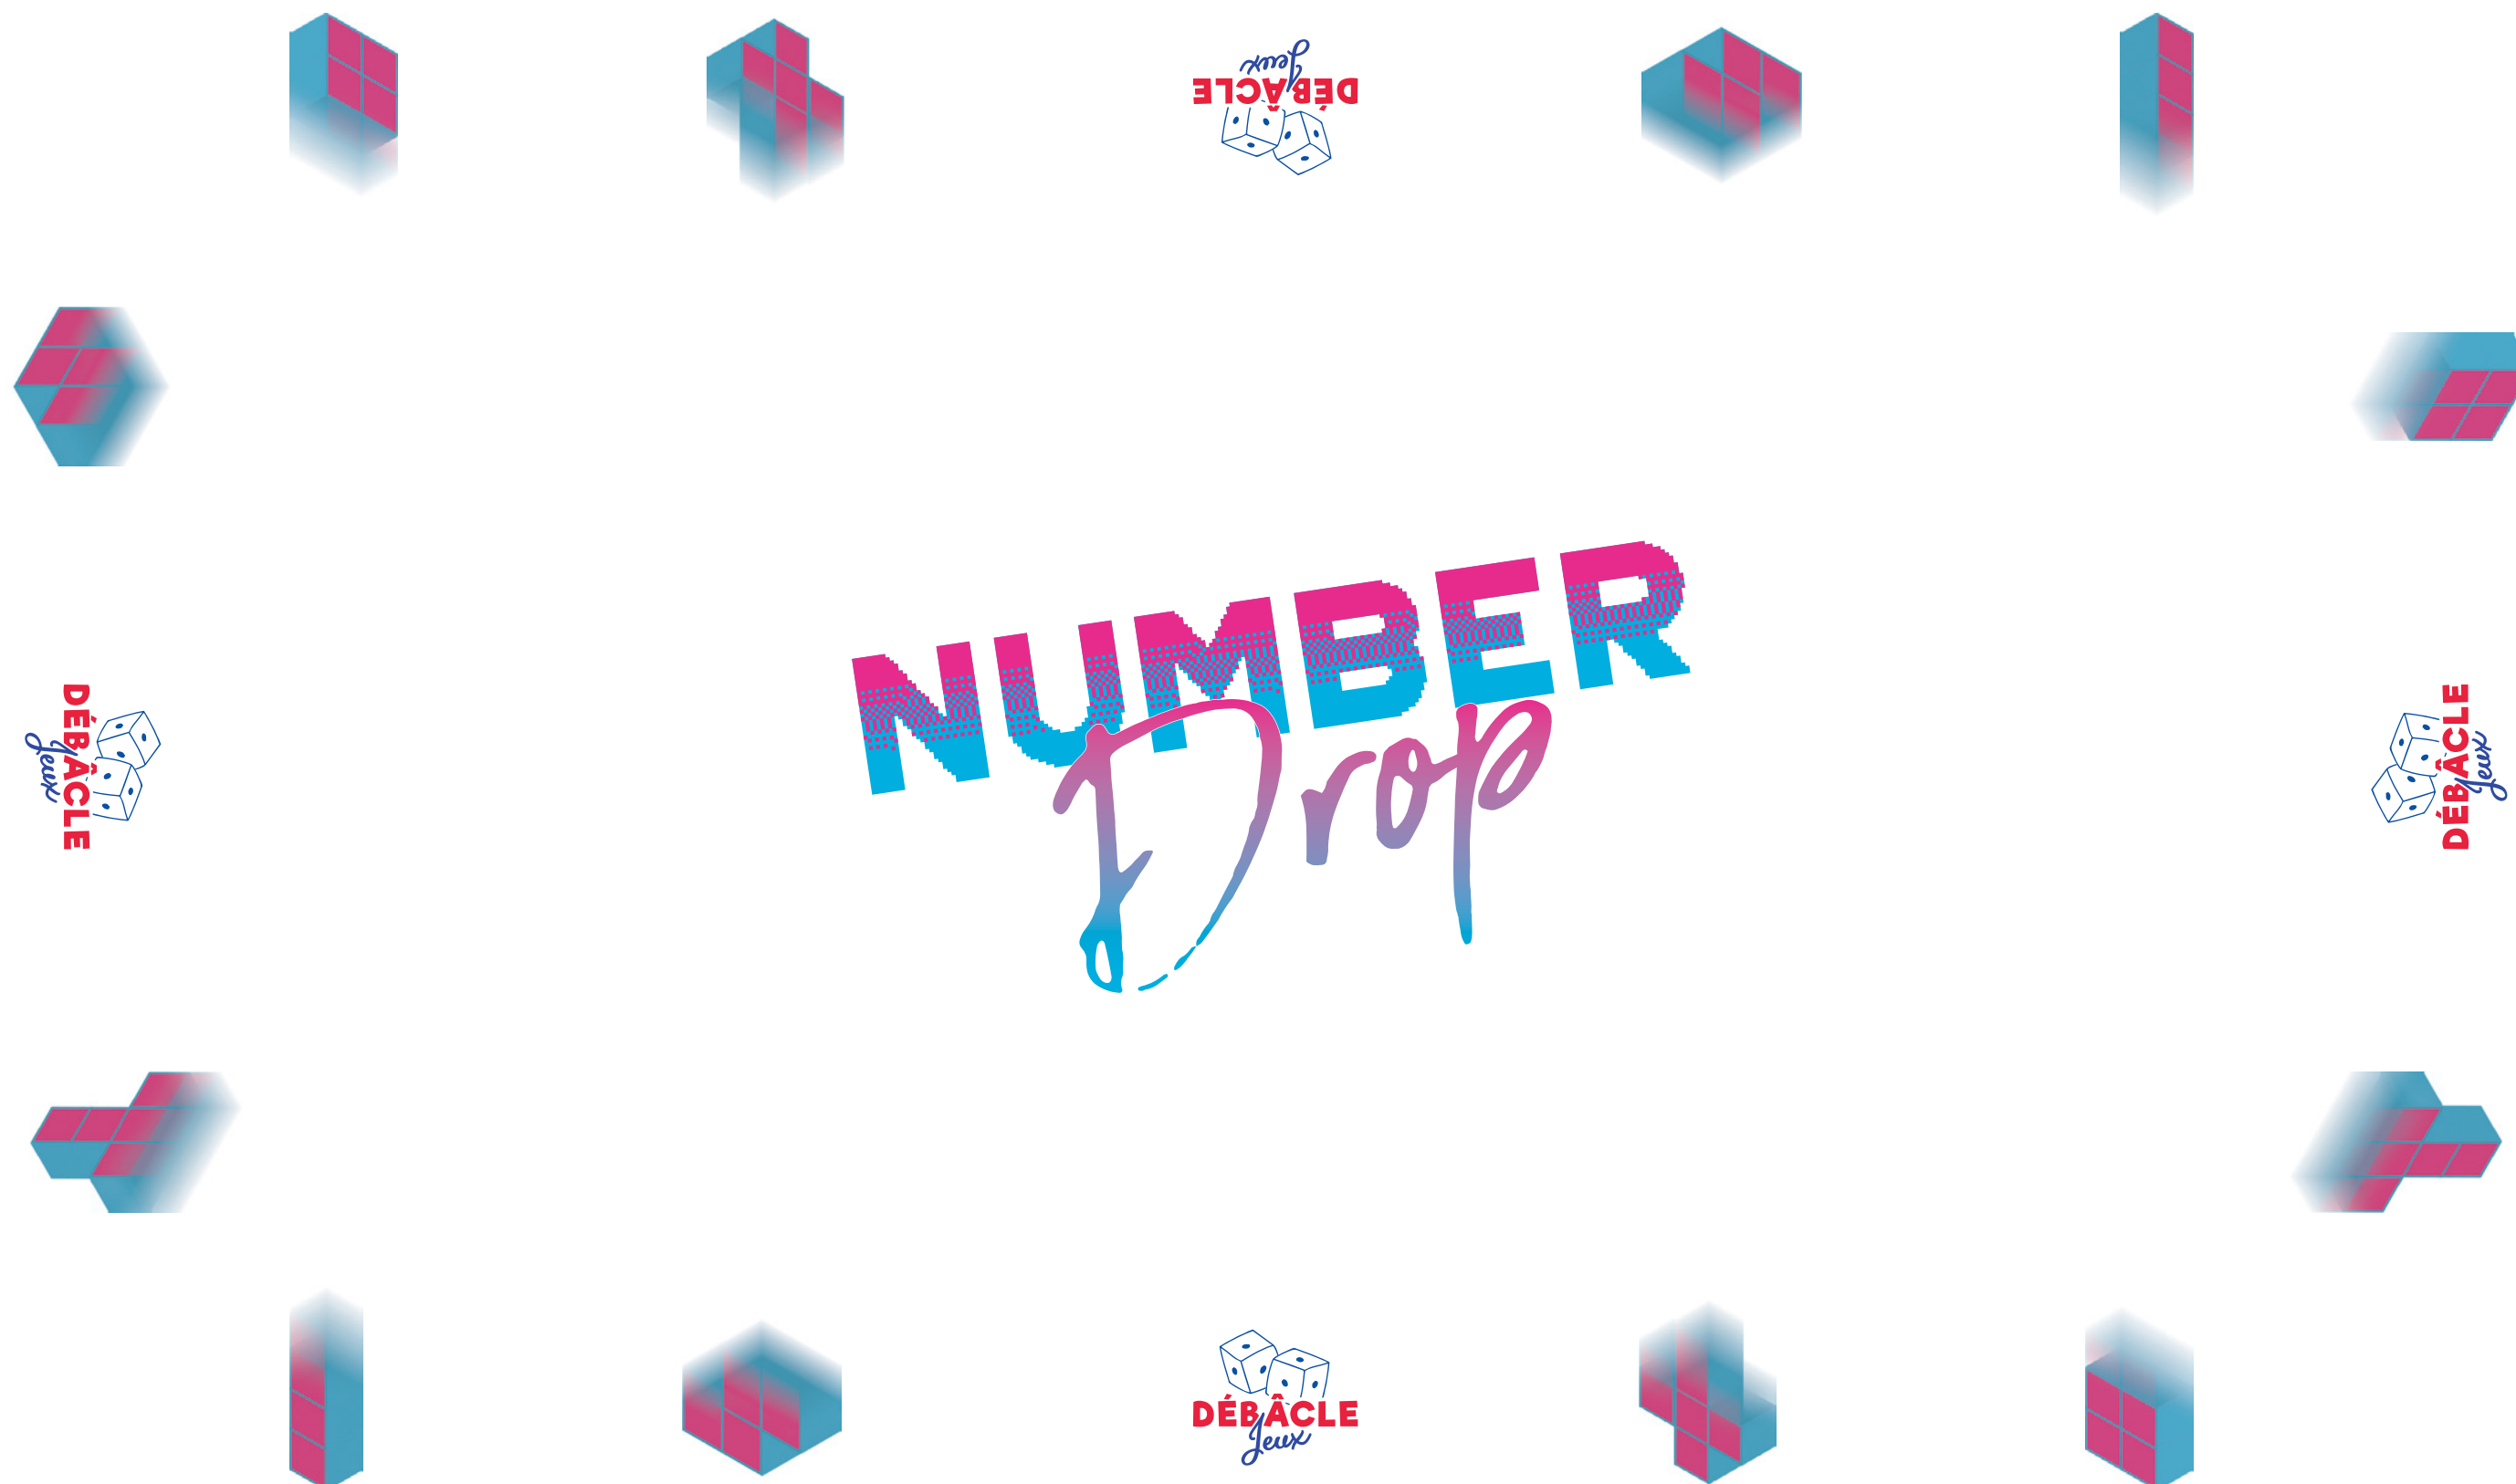

Each game release is accompanied by posts on social networks, video rules or trailers, and contests conducted by influencers.

More specifically, for Number Drop, subscribers to our Facebook page were able to choose the game box!

The trailer and the video-rule are currently being prepared and will soon be available on our Youtube channel.
